The cozy guest bathroom. The 2nd floor collection features everything a guest bathroom must have; toilets, shower trays, handrinse basins and furniture vanity units in every dimension, variation and combination. And the use of warm wood tones throughout the entire range (shown here in Bleached Oak, real wood veneer) means that 2nd floor creates a particularly warm and cozy atmosphere. Additional finish options include Ebony (real wood veneer), Rosewood (decor) or White High Gloss (lacquer).

Create entirely unique and sophisticated space solutions with 2nd floor: the handrinse basin, e.g. with a surrounding wooden case (4) or with an additional shelf near or under the basin (5). Other available alternatives for the 50cm-wide handrinse basin are a wall mounted or floor-standing vanity unit (1 + 7) as well as a siphon cover (6).

1

The designer guest bathroom. Indulge your guests in good design: created by Philippe Starck, the Starck 2 range is not only highly aesthetic, but also perfectly functional. With its compact 50cm-wide handrinse basin that still offers plenty of surface space or its urinal with cover, it is ideal for a private guest bathroom.

Products: Starck 2 (Design by Philippe Starck)

Siphon cover for # 076138	# 0863830000

Accessoires: Series Starck 1

As sophisticated as it is slip-resistant: the convenient Starck shower with teak grid combines good design with high functionality (4).

Refined for particularly small guest bathrooms: the 38cm-wide handrinse basin with siphon cover and tiny 26cm overhang saves precious spaces and offers a convenient basin size (5) despite its small dimensions.

The guest toilet with plenty of storage space. Guests also appreciate having space for their things. The Fogo bathroom furniture range is a true winner when it comes to storage space – and even gives small bathrooms an inviting feeling. Here you can see a mirror cabinet, a low cabinet and console, alternatively combined with washbasins from the Bacino or Starck 1 series. Available finishes include real wood veneers of American walnut, Macassar, Ash Olive, American Cherry Tree and Bleached Oak.

Products: Bacino, Starck 1 (Design by Philippe Starck), Fogo

5	Order No.
Mirror cabinet American Cherry	# 9672

Accessoires: Series Starck 1

Refined: the new Fogo low cabinet is ideal for guest bathrooms thanks to its shallow depth (4).
Storage wonder: the Fogo mirror cabinet offers plenty of space for odds and ends (5).

5

A small yet extremely elegant exterior, a surprisingly spacious interior: the Happy D. vanity unit (1) provides plenty of practical storage space for towels and anything else you might need in a guest bathroom. The lower glass shelves in the doors are furnished with a double chrome rail to ensure that everything remains safely in place (illustration on right). The following surfaces can be chosen for all solitary and grid furniture from the Happy D. range: White High Gloss (decor) and real wood veneers ranging from Bleached Oak and American Cherry Tree to American Walnut and to dark Macassar.

The timeless guest bathroom. With the award-winning Happy D. range from Duravit, you cannot go wrong. And this includes guest bathrooms too, e.g. with a wall mounted toilet, mirror, washbasin and vanity unit. The wood surfaces (shown here: American Cherry Tree) lend the bathroom a homely feel. Well-suited mix-and-match options are the shower and urinal from the Starck and Starck 3 ranges.

Where less storage space is required the washbasin combined with the siphon cover makes for a perfect alternative (2).
The narrow washbasin with a mere 25 cm overhang is perfectly suited to particularly small bathrooms (3).

6

The compact guest toilet. Even in places with very limited space, Duravit offers both functional and aesthetically pleasing solutions. The Starck 3 is a great match for rooms with limited space, e.g. with washbasins of the smallest dimensions and wall mounted toilets and bidets of compact construction. An appealing guest bathroom can easily be designed using this versatile collection, which pays heavy attention to detail.

Urinal, model with cover	see page 19

The elegant guest toilet. How minimalistic geometry can create extraordinary elegance is highlighted by the Architec and Starck 1 ranges. And they blend together so well: circular, square, conical – washbasin, urinal and wall mounted toilet create a natural unit. The design is complemented by a Fogo console in elegant Macassar. The length can be varied from 80 cm – 200 cm.

As beautiful as it is practical: accessories like paper holders and toilet brushes in the Starck 1 range ensure that nothing is amiss in the guest bathroom. The urinal (3) is also available in a closed version with cover (see page 19).

8

The bathroom in the holiday home. Whether you're the owner or the guest, everyone wants a little luxury while on holiday. The Starck 1 range features great bathroom furnishing solutions. The barrel-shaped washbasin, shown here in American Walnut, is already a classic. Appealing alternatives include the washbasin with towel rail and the washbasin with ceramic top and wooden legs. Illustration left: the "barrel" is available in (f.r.t.l.) Macassar, American Walnut, American Pearwood and the brand-new, lacquer finishes in black or white.

Products: Starck 1 (Design by Philippe Starck)

Starck 1 offers many possibilities: one available option is the 57 cm-wide washbasin with siphon cover plus practical towel rails for guest towels (3) or the classic model with simple siphon cover (no illustration).

1

2

The guest toilet under a roof. Roof pitches are a necessary architectural fact and so it's good to know that suitable products to furnish them and to optimize space can be found at Duravit. The Starck 1 toilet with SoftClose toilet seat (in floormounted or wallmounted version) and, in particular, the diagonal Architec washbasin are real winners in smaller areas.

Accessoires: Series Happy D.

Small but refined: wherever space is limited, the Vero handrinse basin with an overhang of only 25 cm proves to be the perfect problem solver (1). Extra clever: the furniture washbasin with matching vanity unit for plenty of practical storage room (see page 24, illustration 2) or the planning-friendly narrow solution with a width of only 25 cm (see page 29, illustration 4).

The colorful guest toilet. White meets color, square encounters round – and it looks so good. The Vero ceramic series diligently follows a rectangular form and for this very reason washbasins, floor-mounted toilets and bidets can easily be combined with other layout elements.

Chic: the washbasin with chrome stand and additional rail for hand and guest towels (4). The toilet and bidet – wall-mounted or floorstanding – perfectly replicate the basic rectangular form of the washbasin and rest on a smaller cuboid. The toilet seat with convenient, automatic SoftClose system sits flush with the ceramic rim to form a harmonious unit (2 + 5).

11

2

X-Large revamps small bathrooms: a new solution for a washbasin vanity unit in Teak

The well-appointed guest bathroom. This clear-cut design offers just as much practical comfort. The clear design of the washbasin and wallmounted toilet from the Vero ceramic series create an elegant and even edgy look. The washbasin vanity unit and wall boards from the X-Large furniture range offer plenty of shelf space. Real wood veneers and decors from dark Wengé to light Natural Oak provide a cozy, inviting atmosphere. Particularly sophisticated and new to the range are Teak (decor) and Oak Anthracite (real wood veneer). In addition, there are the varnished surfaces including Cappuccino High Gloss and White High Gloss.

Products: Vero, X-Large (Sieger Design)

1	Order No.
Handrinse basin, 450 mm ground, with overflow, with tap-platform	# 0704450027

3	Order No.
Furniture washbasin, 850 mm with overflow, with tap-platform	# 0329850000
Vanity unit wall mounted, Oak Natural	# 6052

Where to put used towels? The towel basket which can be tilted outwards from the X-Large washbasin vanity unit guarantees tidiness and hygiene in a guest bathroom.

12

The smaller the dimensions, the more the emphasis is placed on design. It's a concept that has been embraced by the furniture washbasin from Starck 3. Whether it be with a suitable X-Large vanity unit in the brand-new White High Gloss (1) or the height adjustable metal console (3), the washbasin, with its 48 x 46.5 cm dimensions, proves elegant in any setting. And, if a guest happens to look at the underside of the basin while drying his hands, he'll find it is smoothly finished, even on the underside.

The economical guest bathroom. Washbasin, toilet, bidet, urinal: Starck 3. Vanity unit: X-Large. Accessories: D-Code. Three ranges that not only distinguish themselves through good design, but which are also excellent value for money. When combined, they create a guest bathroom that is simply unbeatable in terms of form, functionality and price.

Products: Starck 3 (Design by Philippe Starck), X-Large (Sieger Design)

Urinal selection: the geometrically appealing version with a fly target for increased accuracy (4) or the classical version (see page 13).

A problem solver for particularly limited spaces: the Starck 3 washbasin (50 cm) and the corner washbasin, which fits snugly into every niche (5 + 6).

13

1

The discreet guest bathroom. This outline shows how you can simultaneously separate various bathroom areas while keeping the layout transparent: bidet and toilet from the Vero series are separated from the rest of the room by glass screens. The wash area is comprised of a Vero washbasin plus vanity unit and a mobile storage unit from the X-Large range.

Products: Vero, X-Large (Sieger Design)
